The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/589,790	Applicant(s) GUST, PETER	
	Examiner GEORGE D. SPISICH	Art Unit 3616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

Newly submitted Figure 7, which was submitted on November 27, 2009 is not accepted due to the particular details of the spring element having a fluid medium is (1) in a particular operative relation/location and (2) a pneumatic piston/cylinder arrangement that is New Matter.

Specification

The amendment to the Specification submitted on November 27, 2009 has not been entered as this detail is New Matter due to the particular details added to Figure 7 and the piston cylinder structure and operational relation/location of the spring.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 17 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 3616

In claim 17 (and newly submitted Fig. 7), the particular detail of the fluid medium are not clearly shown and originally disclosed with the current amendments to the specification and Figures being New Matter.

Examiner suggests cancelling claim 17.

Allowable Subject Matter

Claims 1-16 and 18 are allowed.

Response to Arguments

Applicant's amendment of November 27, 2009 has overcome the 112 rejections of the Non-Final Office Action of 6/24/09. The Terminal Disclaimer of 11/27/09 has been approved and overcomes the Double Patenting Rejection of 6/24/09.

However, the newly added details to the Specification and Figure 7 introduce new matter since the fluid medium spring was not originally disclosed as a piston cylinder spring and furthermore, the location of the spring and operational positioning of the spring as shown in Figure 7 is also New Matter.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

Art Unit: 3616

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
